900 Third Avenue
New York, NY 10022

Dear Dr. McAllister,

I am interested in applying to your program for support of my research. For several years I have been studying various aspects of cell and organelle motility, particularly in secretory systems, and I would like to know if this type of basic investigation is appropriate for possible funding by your organization. In addition to basic information about your program, I would also appreciate, if available, a list of currently supported grants.

Sincerely,

Joseph P. Albanesi
